Full Day Tour (Code FD06)

## **The original Big 7 Safari** **Algoa Bay and Addo Elephant National Park**

8.00 a.m. pick up at place of residence in Port Elizabeth. We board the boat for an awe-inspiring marine safari into the protected waters of Port Elizabeth's Algoa Bay searching for Dolphins, Seals, Sharks and the seasonal Humpback and Southern Right Whales. Under expert guidance we circumnavigate St Croix Island for close up view of the largest breeding colony of African Penguin in the world.

Further in Algoa Bay on the Bird Island group (not included) the largest breeding colony of Cape Gannets in the world occurs. These striking birds can be seen performing aerial feats, diving deep into the water to harvest Sardines in bait balls.

We return to the harbour for a satisfying light lunch at the Yacht club, where the setting is wonderful and the food great.

After lunch we board the tour vehicle and depart for the Addo Elephant National Park for exciting game drives, scanning the thickets for the more traditional members of the BIG 5.

After entering we check in and immediately start our game viewing experience searching for the many and diverse creatures in the thickets and on the open plains while learning about the habitat in which they live.

The reserve is famous for its population of over 600 African Elephants, herds of Buffalo, Lions and Leopard amongst the many species of antelope, Zebra and Warthog as well as the rich and diverse bird and reptile life that inhabit this expanded National Park, one of the most popular in South Africa.

Tour includes:

- Pick up and drop off at place of residence in Port Elizabeth
- Guided tour
- Marine Safari
- Entrance/conservation fee
- Light lunch
